

## Safety Data Sheet (SDS)

### Product: Wet Look H2O

#### 1. Identification

| Section         | Details                                                         |
|-----------------|-----------------------------------------------------------------|
| Product Name    | Wet Look H2O                                                    |
| Product Number  | 002                                                             |
| Supplier        | Skyrex Inc., 427 Whitehead Ave (Suite 2), South River, NJ 08882 |
| Phone           | 908-245-1152                                                    |
| Emergency Phone | CHEMTEL 1-800-255-3924                                          |
| Intended Use    | Water based surface enhancer/ protectant, Tire dressing         |

#### 2. Hazard Identification

| Section                | Details                                                      |
|------------------------|--------------------------------------------------------------|
| Classification         | Not classified as hazardous under OSHA HazCom 2012           |
| Signal Word            | None                                                         |
| Hazard Statements      | May cause mild skin or eye irritation with prolonged contact |
| GHS Precaution Phrases | Avoid contact with eyes. Wash hands after handling.          |
| LD 50/LC 50            | Ingredient CAS# 9006-65-9, Dimethicone: Not available.       |

#### 3. Composition / Information on Ingredients

| Section                             | Details        | Concentration |
|-------------------------------------|----------------|---------------|
| Water                               | CAS 7732-28-5  | 70-90%        |
| Silicone oil (Polydimethylsiloxane) | CAS 63148-62-9 | 15-30%        |
| Proprietary Polymers                | Mixture        | <1%           |

|                 |         |     |
|-----------------|---------|-----|
| Fragrance / Dye | Mixture | <1% |
|-----------------|---------|-----|

## 4. First-Aid Measures

| Section      | Details                                                                                                |
|--------------|--------------------------------------------------------------------------------------------------------|
| Inhalation   | Move to fresh air. Get medical attention if symptoms occur.                                            |
| Skin Contact | Wash with soap and water. Remove contaminated clothing. Seek medical attention if irritation persists. |
| Eye Contact  | Rinse with water for several minutes. Seek medical attention if irritation persists.                   |
| Ingestion    | Rinse mouth. Do not induce vomiting. Seek medical attention.                                           |

## 5. Fire-Fighting Measures

| Section              | Details                                                      |
|----------------------|--------------------------------------------------------------|
| Flash Point          | See physical properties                                      |
| Extinguishing Media  | Water spray, dry chemical, CO2 foam                          |
| Special Hazards      | Not flammable. May produce irritating fumes if heated        |
| Protective Equipment | Firefighters should wear self-contained breathing apparatus. |

## 6. Accidental Release Measures

| Section  | Details                                                                                                                                                                                                                                               |
|----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Response | Personal Precautions: Avoid contact with eyes and prolonged skin contact. Environmental Precautions: Prevent large releases from entering waterways. Cleanup: Contain and absorb with inert material. Dispose of in accordance with local regulations |

## 7. Handling and Storage

| Section  | Details                                                                                                                                                                                                         |
|----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Handling | Avoid contact with eyes and skin. Use with adequate ventilation. Wash thoroughly after handling material. Remove contaminated clothing and wash before reuse. Use with adequate ventilation. Avoid contact with |

|         |                                                                                 |
|---------|---------------------------------------------------------------------------------|
|         | eyes, skin, and clothing. Avoid ingestion and inhalation.                       |
| Storage | Store in a cool, dry, well-ventilated place. Keep the container tightly closed. |

## 8. Exposure Controls / Personal Protection

| Section              | Details                                          |
|----------------------|--------------------------------------------------|
| Engineering Controls | Normal ventilation adequate.                     |
| Personal Protection  | Gloves, safety glasses.                          |
| Exposure limits      | No OSHA PEL or ACGIH TLV established for mixture |

## 9. Physical and Chemical Properties

| Section             | Details                        |
|---------------------|--------------------------------|
| Appearance          | Blue milky liquid              |
| Odor                | Mild/ characteristic fragrance |
| Flash Point         | > 200°F (non-flammable)        |
| pH                  | 6-8                            |
| Solubility in water | Completely miscible in water   |

## 10. Stability and Reactivity

| Section           | Details                                                                                     |
|-------------------|---------------------------------------------------------------------------------------------|
| Stability         | Stable under normal storage.                                                                |
| Incompatibilities | Avoid strong oxidizers                                                                      |
| Decomposition     | No hazardous decomposition products are expected under normal conditions of storage and use |

## 11. Toxicological Information

| Section         | Details                                                                             |
|-----------------|-------------------------------------------------------------------------------------|
| Exposure Routes | Eye contact, skin contact, ingestion (low risk), inhalation or mist (low risk)      |
| Symptoms        | May cause mild skin irritation to eyes and skin. Ingestion may cause stomach upset. |
| Chronic Effects | None known with normal use                                                          |
| Carcinogenicity | Not classified as carcinogenic                                                      |

## 12. Ecological Information

| Section       | Details                                                                             |
|---------------|-------------------------------------------------------------------------------------|
| Impact        | Not expected to be harmful in small quantities. Large spills may harm aquatic life. |
| Environmental | Product is water based and not expected to persist or bioaccumulate                 |

## 13. Disposal Considerations

| Section | Details                                                        |
|---------|----------------------------------------------------------------|
| Method  | Dispose of according to local, state, and federal regulations. |

## 14. Transport Information

| Section | Details                           |
|---------|-----------------------------------|
| DOT     | Not regulated as dangerous goods. |

## 15. Regulatory Information

| Section               | Details                                                 |
|-----------------------|---------------------------------------------------------|
| OSHA                  | Not classified as hazardous under OSHA HazCom 2012      |
| TSCA                  | All components are listed or exempt from TSCA inventory |
| EPA Hazard Categories | Not applicable                                          |

## 16. Other Information

| Section                      | Details                                                                                                                                                          |
|------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Prepared By                  | Skyrex Inc. Compliance Team                                                                                                                                      |
| Date of Preparation          | September 19, 2025                                                                                                                                               |
